

3D PRINTING

Go 100% digital

Dedicated for AK and BK sockets, helmets, and more...

- **3D printing technology:**
Fused Filament Fabrication (FFF)
- Large range of dedicated materials
- Press Button Solution
(no additional software required)
- **Printing time:**
BK test socket: 2.5 hours
- **Max. print volume:**
Ø400x600mm (~75l)

Machine dimensions: 800x730x2140mm (WxDxH)

Weight: approx. 250kg

Power requirements: 230V 16A, pressurized air 6-8bar 80l/min

Network connectivity: Ethernet 10/100, RJ45

Stand-alone operating module: integrated capacitive 10" touchscreen interface

Made in Germany
